

以东方人传统的人居哲学生活理念 为您的私家空间缔造上品家居空间

Drawing on the traditional Eastern philosophy of human settlement and lifestyle, we create a superior home environment for your private space.

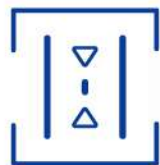

Brand Stories

富士精工电梯有限公司是国内升降交通工具的一流品牌,作为行业的先行者,运用国外先进技术理念,自主研发电梯关键核心部分(曳引机、控制系统、门机系统),并建立科学、有效的企业质量保证体系,确保产品从设计、制造、安装到售后服务全过程质量控制。企业集电梯研发、制造、销售、安装、维保服务为一体,是一家具有几十年电梯整机制造经验的电梯生产企业。产品涵盖了:高速电梯、乘客电梯、担架电梯、观光电梯、医用电梯、家用电梯、载货电梯、汽车电梯、液压电梯、杂物电梯、自动扶梯、自动人行道等电(扶)梯系列产品。目前,富士精工电梯已先后开发了20多个系列、50多种规格的电梯,产品畅销海内外多年,销售网络遍布全球。

FUSIJG Elevator Co., Ltd. is a first-class brand of domestic lift vehicles. As the pioneer of the industry, it uses foreign advanced technology concepts to independently develop key elevator core components (traction machines, control systems, door machine systems), and establish scientific and effective The enterprise quality assurance system ensures the quality control of the product from design, manufacture, installation to after-sales service. The company integrates elevator R&D, manufacturing, sales, installation, and maintenance services into one, and is an elevator manufacturer with decades of manufacturing experience. Products cover: high-speed elevators, passenger elevators, stretcher lifts, sightseeing elevators, medical elevators, home elevators, cargo elevators, car elevators, hydraulic elevators, debris elevators, escalators, automatic walkways and other electric (help) ladder series products. At present, FUSIJG Elevator has developed more than 20 series of more than 50 kinds of specifications of the elevator, the products sell well for many years at home and abroad, sales network all over the world.

智能APP系统
Intelligent APP system

智能呼梯模式
Intelligent calling landing mode

智能灯光系统
Intelligent light system

智能灯光系统
Intelligent light system

智能APP系统 Intelligent APP system

领先的手机APP服务,您只需下载安装,就能通过手机完成呼梯、预约维保、运行监控等多项功能,操作更省心。

The leading mobile phone APP service, you only need to download and install, you can complete the calling landing, appointment maintenance, operation monitoring and controlling, and other functions, and it's easier to operate.

智能呼梯模式 Intelligent calling landing mode

可选用手机呼梯、指纹呼梯、人脸呼梯等多种呼梯模式,为不同家庭成员定制方案。

The mobile phone calling landing, fingerprint calling landing, humanface calling landing and other calling landing modes can be selected

解决方案

高端智能家居解决方案 献给慧生活的你

High-end smart home solution
Dedicated to smart life you

基于多年相关技术领域的深耕积累和家居场景服务的丰富经验,富士精工通过先进网络通讯技术和智能控制技术,将与家居生活相关的各个子系统有机结合,提供软硬件一体化解决方案,富士精工将陆续引入德国更多著名家居品牌产品,打造家居全场景智慧生活服务。

Based on years of experience in related technology fields and home scene services, Fuji Seiko integrates various subsystems related to home life organically through advanced network communication technology and intelligent control technology, provide software and hardware integration solutions, Fuji Seiko will gradually introduce more well-known home brand products in Germany, to create a home full-scene intelligent life services.

从互联网到数据交换的提速,为移动互联的发展提供强大支撑,作为全球领先的电扶梯,及相关的产业服务商,电梯数据管理的智能时代已经到来,富士精工团队开发富士云维保管理系统,将电梯设备,公司管理者,维保人员,物业管理,四方相关联,拼接该平台,公司可全程监控电梯运行状况与维保进度,大幅度提高管理工作效率及售后质量,确保维修及时高效。

The speed increase from the Internet to data exchange provides a strong support for the development of mobile interconnection. As the world's leading escalator and related industrial service providers, the intelligent era of elevator data management has arrived. FUSIJG team has developed the FUSIJG i-Cloud security management system. The elevator equipment, company managers, maintenance personnel, property management, and the Quartet are connected and the platform is spliced. The company can monitor the operation status of the elevator and the maintenance progress, greatly improve the management efficiency and after-sale quality, and ensure timely and efficient maintenance

云服务流程

Service processes

01 平台大数据实时交互 Real-time big data interaction on the platform

富士云系统通过AI人工智能技术的嵌入运用,采用不间断的与电梯数据交互监测,无时无刻地监管着电梯的健康运行信息,并形成将相关结论信息主动推送给责任维保组织人员,以获得最精准的服务信息及最完美的服务时间。

The Fuji Cloud System, through the embedded application of AI technology, continuously monitors elevator data through uninterrupted interaction, constantly supervising the healthy operation information of elevators. It actively pushes relevant conclusion information to the responsible maintenance organization personnel to obtain the most accurate service information and the most perfect service timing.

02 大数据系统分析 Big data systems analysis

针对电梯健康指数下降趋势自动给出预警信息及处理对策,实现把故障抢修变提前预警。

Automatically provide early warning information and countermeasures in response to a declining elevator health index, transforming fault repair into proactive early warning.

03 大数据系统分析 Accurate positioning, power protection

通过APP精准定位故障地点,助力工程师快速赶往现场作业
Through APP precise location, help engineers quickly rushed to the scene.

04 确认签单维保结束 Confirm the signature is complete

如有配件需要更换,可直接在APP上下单申请,维保流程结束,在手机上确认签单验收。

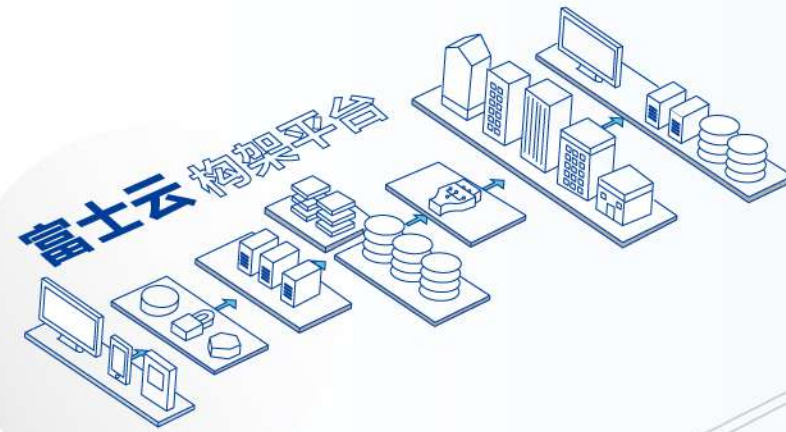

Through APP precise location, help engineers quickly rushed to the scene.

智慧富士 打造领先大数据平台

云平台解决方案 Cloud platform solution

平台运用云计算、物联网、大数据处理等先进信息技术为手段,通过可持续运营的商业服务模式面向各行业实现跨区域,多层级的集中监控和管理,为政府、主管部门和运营企业提供远程监管、决策支持等服务,同时面向公众提供多渠道即时讯息,推动智慧产业可持续发展的整体解决方案。

The platform uses advanced information technology such as cloud computing, internet of Things, and large data processing as a means to achieve cross-regional implementation through a sustainable business service model. Multi-level centralized monitoring and management provides remote supervision, decision support and other services for the government, competent departments and operating companies. At the same time, it provides multiple channels of instant information to the public and promotes the overall solution for the sustainable development of the intellectual industry.
